EcklersCorvette.com

Welcome Corvette Owners!

You now have the world's largest supply of 1997–2004 Corvette parts and accessories at your fingertips, as well as a team of enthusiasts and experts at your disposal who can offer technical assistance and practical advice pertaining to your particular car. We sincerely appreciate your business, and look forward to working with you on your version of America's Sports Car!

Lowest Price Guarantee

Eckler's Guarantee is simple: You always get the best quality parts at the lowest price! Show us the identical item advertised in any current magazine, catalog, or website and we'll match our competitor's current price, guaranteed! This offer is available only at the time of purchase and applies to in-stock merchandise only. We can't combine this with any other offer. Tires, restoration services, kits, window glass, cores, reproduction batteries, certain engines, transmissions, used parts, special order parts, and shipping and handling charges are excluded.

Eckler's Gift Certificates

The perfect gift when you just can't decide. Available in many different amounts, from \$25 right up through \$1,000. Easy to ship, too!

The Best Parts at the Best Price

This is not just a slogan! Eckler's is committed to providing the highest quality parts at the most competitive prices. We source and select all of our parts exclusively from the world's leading brand name manufacturers using our massive buying power. This means you get the best there is, at the best prices on the market today.

100% Satisfaction Guaranteed

Our commitment to you: If for any reason you are not 100% satisfied with any of our products, simply return it for a full refund, credit or exchange—your choice.

Follow all the Eckler's Automotive Parts Companies on Facebook and Twitter!

3 Easy Ways to Order!

More Than 50 Years of Innovation

In the early 1960s, Ralph Eckler's vision began by manufacturing fiberglass replacement parts for Corvettes out of his small shop in Illinois. As the Corvette grew in popularity, so did the restoration/aftermarket business. In the early 1970s, Eckler's relocated to central Florida, and the company flourished into a multimillion dollar business. Today, Eckler's employs more than 200 people and provides the classic car industry with more than 130,000 parts for classic Chevrolet, Ford, Porsche, and Mercedes-Benz.

Eckler's Corporate Headquarters in Titusville, Florida

ECKLER'S

Leading the Corvette Parts Industry in Fiberglass Body Components!

We offer you fiberglass body parts and two types of bumpers and spoilers—all of which have slightly different benefits. Choose what's right for you.

Press Molded Body Parts

Formed in a large hydraulic press similar to the factory original parts. Smooth finish on both interior and exterior sides of your part. Slightly higher cost but closely resembles factory panels

Hand Laminated (Flex-Fit) Fiberglass Bumpers and Spoilers

Combines the flexibility of urethane with the cost advantages of fiberglass. Allows seamless integration of bumper with front body panels for better appearance and easier painting

Injection Molded Urethane Bumpers

Factory original appearance. More resistance to crash impact than standard fiberglass.

1997–2004 Cold Air Hood

- *Hand Laminated Fiberglass Construction*

1997–2004 Ground Effects

Front Bumper and Spoiler

- *Hand Laminated Fiberglass Construction*

1997–2004 LT1 Style Front Fascia Spoiler

- *Fully Functional Hand Laminated Fiberglass*

These are just a few examples of our premium quality fiberglass offerings. See our huge Exterior Section for ordering information, product details, and more.

When you see the Eckler's Exclusive logo, know you're buying the best in the industry. Proudly manufactured in the USA! Thank you for shopping with Eckler's Corvette!

1997-04 Baer EradiSpeed Plus II Front Brake Rotors

- Provides Z51 Size Rotors On Stock C6
- Hi-Performance, Large Diameter, Two-Piece Rotors
- Includes Brackets
- Bolt-On Installation • Fits All Except C6 Z06

With Baer's EradiSpeed Plus II Upgrade Kit you can change to Z51 size rotors without changing calipers and add hi-performance, two piece, lightweight rotors. One of the features that makes these rotors stop so much better is the extra material that has been internally cast in the brake pad area. It is this material that allows the heat to be drawn away from the fire path to improve braking performance. And it is this feature that permits Baer to offer a manufacturer's limited lifetime warranty against warpage to the original purchaser. The rotors are a two-piece design with a billet aluminum hat which is anodized black. The hats are secured to the rotor ring with stainless steel hardware and it's aluminum hat that makes these rotors almost 4lbs. lighter than the stock rotors. Baer's lighter rotors reduce the unsprung weight and consequently improve handling. The front rotors are 13-3/8" vs. the stock size of 12-3/4" and the brackets make installation an easy, bolt-on procedure.

1997-04 High Performance Brake Rotors

- **Upgrade Rotors For All C5's**
- **Drilled And Slotted**
- **Bolt-On Installation**

Cryogenic tempering is a one-time stress relief process that involves both cold and heat treatment of the brake rotor. This stress-relief process permanently improves the performance and service life of all metals. Cryo-treatment delays the formation of heat checks on the braking surface and gives the rotor an extra level of protection against warping.

1997-04 Baer DecelaRotor™ One-Piece Brake Rotors

- **Stop Better Than Stock Rotors**
- **Slotted And Drilled For Performance Look**
- **Bolt-On Installation**
- **12.75" Diameter**

Baer's DecelaTRotor™ Performance Brake Rotors for Corvettes

provide better stopping than the stock rotors and the performance look of drilled, slotted and zinc plated rotors is an outstanding visual upgrade. One of the main reasons Baer rotors stop better is because where the pad rides is internally thicker than the stock rotor thereby pulling heat away from the fire path. This feature allows Baer to provide a 36 month/36,000 miles warranty to the original purchaser against warpage. These rotors simply bolt-on and are the same diameter as the stock rotors.

25-161776

1997-04 Baer EradiSpeed-Plus Two-Piece Brake Rotors

- **Hi-Performance Upgrade Rotors**
- **Far Superior To Stock**
- **Two-Piece Design Is Lighter Than Original**

For those who want more performance than stock and lighter weight than EradiSpeed's one-piece rotor then their two-piece rotor is the answer. Like the one-piece design the two-piece model is internally thicker where the pad rides to allow heat to be drawn away from the fire path better. It's this feature that allows Baer to offer the original purchaser a manufacturer's limited lifetime warranty against warpage. And like the one-piece unit the rotor ring is slotted, drilled and zinc plated. The aluminum hat of the two-piece design is made of billet aluminum that is anodized black. The hat is secured with stainless steel fasteners and it's the hat that allows each rotor to be almost 4 lbs. lighter for less unsprung weight and improved handling. The front rotor for the Eradi-Speed Plus is the same size as stock while the back Eradi-Speed Plus II is 14" in diameter vs. 12-1/4". Not only does the larger diameter add more stopping power it also fills up the stock spoked rear wheel for a better look. The rear rotors come with rear caliper relocating brackets and you'll find all 4 rotors an easy, bolt-on installation.

1997-04 Hawk Ceramic Rear Disc Brake Pads

- **Lowest Dusting Hawk Brake Pads Ever**
- **Improves Stopping Distance Over Factory Brake Pads**
- **Quiet And Rotor Friendly**

Finally a disc brake pad that stops and is low-dusting. Hawk Performance Brake company has formulated an aerospace ceramic material that is cleaner and stops better than a factory brake pad. This low-dusting ceramic pad will be as quiet as a mouse while at the same time being gentle on the rotor for long life wear.

1997-04 ACDelco Dura Stop Ceramic Friction Brake Pads

- **Premium Upgrade Over Stock Pads**
- **Low Dusting Quiet Braking**

ACDelco Dura Stop Pads have been specially developed for C5's not to produce annoying and unsightly brake dust typically found in ordinary friction formulations. They also have the noise suppression features of being shimmed, slotted and chamfered plus they are ultra quiet because they don't have iron or steel fibers. Ceramic friction also outlasts other non-ceramic pads.

1997-04 DOT Braided Brake Hose Sets

- Meets Federal Motor Vehicle Safety Standard No#106
- Increases Pedal Firmness
- Corrosion Resistant Stainless Steel

Every time you apply the brakes, the factory rubber hoses expand under hydraulic pressure. Even a small amount of expansion is enough to make the pedal seem soft. Braided stainless brake hoses give you more confidence by delivering a faster response time and a firmer pedal.

1997-04 Be Cool® Direct Fit Aluminum Radiators

- Engine Runs Cooler 20°-40°
- 40% Lighter Than Stock
- Vacuum Braze Assembled (Epoxy Free)

High horsepower engines generate a lot of heat and require extra cooling. Whether you performance drive your Corvette or cruise it, keep its coolant temp in check with this direct fit, high capacity aluminum radiator. It features a cast aluminum filler neck, extra strong tanks and advanced core technology. Delivering lighter, more durable and cooler operations over brass and steel radiators.

25-106865

1997-04 Direct Fit Aluminum Radiators

- Cools Better Than Stock Radiator
- Longer Lasting
- Direct Fit

GM's 1997-04 radiator has a single row of cooling tubes and plastic end tanks that are epoxied in place. These direct replacement radiators features 2 rows of cooling for as much as 100% additional cooling surface and it has press formed aluminum end tanks that are tig welded to the core for a permanent seal. The core of this aluminum replacement is furnace brazed which provides a leak-free core without the use of epoxy.

- 50-State Emissions Legal
- Easy Plug And Play Installation

HYPERTECH

Now you can get the most from your LS1 or LS6 with Hypertech's Max Energy Programmer. Use every molecule of fuel both at part throttle as well as wide open throttle. Hypertech's Max Energy Programmer allows you to set engine cooling fan on/off settings, set top-speed limiter, engine RPM "Rev" limiter and even transmission shift points and firmness. Hypertech's Corvette Max Energy Programmers also allow you to return to stock settings or change settings anytime. Have you changed your tire and wheel size or differential, if so, then you can make your speedometer corrections by using Hypertech's Max Energy Programmer. This programmer is a must for all C5 Corvette owners.

1997-04 Stainless Steel Radiator Support Upper Cover

- *Mirror Polished Type 304 Stainless Steel*
- *Snaps Into Place Over Factory Supports*
- *Two-Piece Design*

Give your Corvette a gleaming presence with stainless steel dress-up covers. This radiator support upper cover transforms the dull-looking factory support into an eye-catching work of art. Made from mirror polished Type 304 stainless steel, this two-piece radiator support upper cover simply snaps into place. No permanent modifications to your car are required for installation and keeping this radiator support upper cover shiny is a breeze. The long-lasting, glassy smooth surface of this dress-up cover only needs a spritz of window cleaner followed by a quick wipe with a cotton cloth to maintain its brilliance. Get your Corvette show-ready or just to wow your friends!

1997-04 Filters

- Oil And Air
- Provide Optimum Filtration For Entire Service Interval

ACDelco filters have been engineered to provide maximum filtration for your specific application. ACDelco filters take into consideration all elements of the system so you get not only proper filtration, but the correct air or fluid flow for the period of time specified in your service manual. Using ACDelco filters assures that such key performance parameters as the air/fuel ratio will be kept in perfect balance for optimum performance.

2001-04 Granatelli Motor Sports Performance MAF Sensor With Cold Air Tuning

25-126645

- **High Performance Upgrade Mass Airflow Sensor**
- **Direct OEM Replacement With No Additional Modifications Required**
- **Adds From 8 To 12 Rear Wheel Horsepower & 60% More Airflow Over OEM Unit**
- **Accepts Increased Airflow From Aftermarket Performance Intakes Without Setting Check Engine Lights**
- **Improves Throttle Response, Mileage, & Performance From 2,000 RPM To Red Line**
- **Installs In 10-15 Minutes With Basic Hand Tools**

Your factory 2001-2004 C5 mass airflow sensor is robbing your LS1 or LS1 powered Corvette of its fullest power potential. The factory electronics are designed and calibrated to meet emission standards instead of delivery optimum performance. Granatelli Motorsports pioneered high performance aftermarket replacement mass airflow sensors. They calibrate their performance upgrade mass airflow sensors on their proprietary in-house mass airflow sensor dyno and flow bench. This guarantees each one is tuned to perfection for YOUR application. This sensor is specifically tuned to handle the increased airflow for aftermarket performance air intake upgrades. On Granatelli's in-house chassis dyno, they've seen performance gains from 8-12 horsepower over stock. Granatelli's MAF sensor installs in 10-15 minutes with simple hand tools you already own. Install this performance aftermarket mass airflow sensor and realize your Corvette's fullest potential. Trust Eckler's Corvette for all your C5 2001, 2002, 2003, or 2004 LS1 or LS6 powered Corvette restoration, accessory, and performance part needs

-----------	-----------

1997-00 Air Intake Temperature Sensor/ Relocating Kit

- **Ideally Locates IAT Sensor**
- **Dramatically Improves Performance**

The Air Temperature Relocating Kit repositions your engine's air intake temperature sensor from the hot plenum area to the where it can sense cooler air. This enables the ECM to adjust fuel to more accurate air temperatures resulting in increased engine performance. This kit can be used with or without the Forced Air Induction System. Installation hardware and 30 minute step-by-step instructions included.

25-157807	Sensor/ Harness	51.99 kit
25-114518	Sensor	14.99 ea.

1997-04 Throttle Body By Pass Tube

- **Adds Up To 5 H.P. (Rear Wheel)**
- **5-Minute Installation**

This tube allows hot water to by pass the throttle body, thereby yielding cooler inlet air. Installation of this tube requires no permanent modifications to your car.

25-109344	19.99 kit
-----------	-----------

1997-04 K&N Hi-Performance Air And Oil Filters

- **Increases Air Flow Up To 57%**
- **Improve Horsepower**
- **Washable, Reusable Filter**

There are 3 good reasons to switch to a K&N Hi-Performance replacement air filter. 1) it increases air flow, improving power and mileage; 2) it operates at a higher level of efficiency for a longer period of time than stock filters; and 3) it's a washable, reusable filter that will be good for the life of your engine. Sealing grease is highly recommended on all filters. ACDelco filter numbers are listed for reference.

1997-04 VaraRam Air Intake System

- **Manufacturer Guarantees 1/4 Mile Gains Of .35 - .40 Seconds Or 3 - 4 MPH Or Your Money Back!**
- **Bolt-On Installation**

The VaraRam is an absolutely great air intake system for producing the most power possible with a bolt-on system. It works best at speeds of 65 mph and greater. It literally acts like a large venturi and rams more air into the engine. The injection-molded system is easy to install for a competent do-it-yourselfer and comes with step-by-step instructions. The manufacturer's buy back is only available within 30 days of invoice date and does not include shipping or any installation labor charges. The returned unit must be in resalable condition (based on the manufacturer's discretion).

1997-04 Livewires Spark Plug Wires

- Our Best Hi-Performance Wire Set
- Fits 1997-04 LS1, LS6

Livewires™ are absolutely feature loaded. The 8mm silicone jacketed wires are covered with a space age, heat resistant sleeving that provides protection up to 1400 degrees Fahrenheit. Each wire has a silicone jacket between the boot and sleeving to keep dirt and moisture away from the wire terminals, plus each wire is numbered for easy installation. Livewires™ have a spiral wound core to prevent annoying radio noise.

1997-04 Spark Plug Wires

- High Temperature Silicone
- Low Resistance For Hotter Spark
- Red To Match Coil Covers

These wires are replacements that provide a hotter spark. They have maximum firepower without radio interference and provide less resistance than standard resistor core wire. These premium-grade, double-layer, silicone-insulated wires offer unsurpassed resistance to heat and damaging fluids and offer enhanced protection against high-voltage breakdown. They are completely assembled and ready to install.

1997-04 Firecore 50 Spark Plug Wire Set

- Exceeds OEM Specs
- Real Horsepower Gains
- Compatible With OEM Electronics
- Includes OEM Heat Tubes
- Heat Resistant To 600°
- Outer Core Is A Copper/ Nickel Alloy Wrap
- Inner Core Is Ferrite Compound Which Absorbs All RFI Emissions
- Center Core Is Aramid Fibers For Maximum Strength
- Dual Crimped Terminals And Special Braid Wrap

Proven race technology for street, strip or road racing, these wires will gain real horsepower in mid range over stock wire sets. Compatible with OEM electronics including radios And OBD 11 you will not have any problems. Used by the pros such as Schumacher Racing, you can expect the mPost out of this set of sparkplug wires. They exceed all OEM specifications and come with OEM heat tubes.

1997-04 Spark Plug Wire And Boot Protectors

- Ideal For Protecting Wires And Boots From Header Heat
- Helps Prevent Misfiring
- Simply Slide Over Existing Wires And Boots

Koolsox™ is an impressive new double layered fiberglass sock designed to add extra protection to exposed spark plug boots and wires. The sock provides an easy visible way to detect potential burn areas before they occur. The sock absorbs the burn instead of the wire so no misfire occurs. An adjustable ring allows the unique sock to be rotated for longer life. Soft and very flexible, you'll find Koolsox™ adapts and stretches over irregular surfaces.

Corsa with PRO Tips

Corsa with Classic Tips

Corsa with Tiger Shark Tips

1997-04 CORSA Indy Exhaust System With Pro-Series 3-1/2" Tips

- Three Tip Options Available
- Powerful Sound Under Acceleration - Quiet As A Mouse During Cruise
- Stainless Steel Construction
- Bolt-On Installation

CORSA'S Power-Pulse RSC™ cat-back systems use breakthrough reactive sound cancellation technology! It cancels offensive noise frequencies (cabin resonance) yet delivers the pure sound of power under acceleration and delivers a pleasing LS-1 exhaust note at idle. By eliminating the baffles, chambers and packing material found in conventional mufflers Corsa systems provide 45% more flow than the factory system. Corsa also adds the visual appeal of highly polished exhaust tips. Corsa systems are available in the Touring version and Indy system. The Touring system is music to the ears of a true performance enthusiast while the Indy system has a somewhat bolder and more aggressive sound. Both systems run without resonance at cruising speed. Limited lifetime warranty to original purchaser.

1997-04 Corsa Ultimate Crossover Pipe™

- Improves Side-To-Side Exhaust Flow
- Smoothes Out Engine Pulses For Better Throttle Response
- Eliminates Exhaust "Idle Burble" And Popping On Deceleration On Most C5's

Corsa's 16 gauge, stainless steel Ultimate Crossover Pipe™ can be used with factory and all aftermarket mufflers. Simply install it behind the O2 sensors with clamps and bolt it to the rear mufflers, no welding is required. It improves sound and performance and is the perfect complement to Corsa's Indy Exhaust system. Instructions and all necessary installation hardware are included.

1997-04 B&B Tri-Flo Exhaust Systems

- Produces Solid 10-12 Horsepower Gain
- Three Tip Styles Available
- 100% T-304 Stainless Steel

B And B Fabrication's Tri-Flo Performance Exhaust for the C5 Corvette is an absolute state-of-the-art stainless steel exhaust system. Built from scratch on a test vehicle, every step in the design has been dyno tested for optimum performance with the perfect mix of sound enhancement and cosmetics. Utilizing factory mounting locations for a clean and simple installation, the Tri-Flo systems are all T-304 stainless steel and come fully polished. The sound; whether it's the original touring (Route 66) or new sport system (PRT), is pure enjoyment, without being overbearing. Both emit a crisp, throaty tone with no interior resonance with the PRT System sound being more aggressive. Cosmetics are greatly improved as the fully-polished system exit the center valance opening with quad 4.5" wide and rolled-edge tips. Installation of the Tri-Flo after-cat exhaust system on the C5 is no more difficult than removing the factory exhaust. In fact, the Tri-Flo system has a slip joint in the axle hoop making installation simple and allows for perfect adjustment. No modifications are necessary and installation can be completed in about an hour using regular hand tools. No cutting or welding is necessary.

1997-04 B&B Bullet Exhaust System

- Loudest Exhaust System On The Market
- 22 RWHP Increase/24 Ft./Lbs. Torque Improvement
- Bolt-On Installation

Many Corvette owners have asked for a deeper, throatier, more robust C5 performance exhaust. Billy Boat took on the challenge, which appeared to be an impossible mission, and using a radical departure in exhaust technology, developed the Bullet! This system is ONLY for enthusiasts! It is without a doubt the deepest, throatiest, loudest system ever made and with absolutely no resonance. The system is manufactured using 100% T-304 stainless steel and features bold 4" double wall tips. The system is covered by a manufacturer's limited lifetime warranty.

1997-04 Corvette American Racing Full Length Headers

- Adds Major Horsepower & Torque To Modified Engines
- .375 Inch Surface Ground Flanges & Ball & Socket Connections Eliminate Leaks
- T-304 Mandrel Bent Stainless Steel With TIG Welds & Ported Inlets
- ARP Grade 8 Header Bolts, Flat Out Racing Gaskets, 02 Sensor Extension Harness, & Accuseal
- Off Road Use Only and Cannot Be Sold Or Shipped To New York Or California
- Made In The U.S.A.

Anytime you add substantial modifications to your C5 Corvette such as heads & cam, a built stroker engine, or a supercharger, you'll need to address the exhaust system. The factory exhaust manifolds, as good as they are, keep you from realizing your engines full power & performance potential. By smoothing and maximizing exhaust flow with a larger diameter full length header, you'll notice substantial gains in power. With highly modified engines, this system will yield a major improvement in horsepower and torque! American Racing Headers full length C5 Corvette headers enable you to fine tune your vehicle to match your upgrades.

Exhaust Wrap

Thermo-Tec Exhaust Wrap holds exhaust heat in, keeping the exhaust velocity high And efficient. Just wrap it around your exhaust pipe and secure with Lock Ties (9" x 18" Stainless Steel ties). Protect wrap with Hi-Heat Coating spray. Wrap roll is 50' x 2" x 1/16" thick, which is enough to cover one header or exhaust pipe.

1997-04 Road Tour Body Panels And Components

- Easy-To-Install Body Makeover
- Components Include A Hood, Canards, Side Ground Effects, Side Spears, Rear Bumper & Custom Matching Magna Flow Exhaust System

Give your C5 an extraordinary new look! All of the body panels are ready to sand, prime and paint. The canards, side spears, ground effects and rear bumper are all made of urethane. The hood is baffled at the front inlet to direct road debris and water away from the engine. The hood and rear bumper are 100% bolt-on items with the bumper using all stock lights and hardware. In order to use the bumper you must order the hi-performance Magna Flow Exhaust System to properly route the exhaust (the exhaust system will give you a performance boost and a powerful road tour exhaust note). The canards, side spears and side ground effects mount to the car with a combination of two-sided tape and supplied fasteners. Instructions included.

1997-04 Rocker Panel Repair Kit

- Allows For Simple Reattachment Of Broken Rockers
- Saves Expense Of Buying And Painting A New Rocker

It's not uncommon for inexperienced service techs to improperly position jack heads while jacking-up your C5 and breaking off the mounting ears on your rocker panels. Ouch! The rocker is then free to flap in the breeze and be a misaligned eyesore. Until now your options were to buy a new panel and paint it or use a half-baked fix. Now you can professionally and quickly fix the problem in minutes. Simply bond the fiberglass repair part or rivet it to the rocker, rebolt it to the body and you're ready to go! Left and right repair parts included in kit, you supply the bonding agent or rivet.

1997-04 Le Mans Type Auxiliary Lighting System

- Creates An Outstanding Look
- Improves Lighting Easy To Install

Besides giving your C5 a distinct, race look, this kit also improves your nighttime vision. It has two hi-performance, CATS hyper white bulbs that put out 240 watts of power. The lights fit in a fiberglass cradle that you paint to match your body color, which neatly and easily mounts in the license housing area. Both lights are fully adjustable and sit behind a tough, clear acrylic lens cover. The kit has an easy four-wire hook-up, which requires no alteration to your stock harness. Instructions included.

1997-04 Third Brake Light Pulsar Kit

- "Delay-Repeat" Circuitry
- Provides Great Visual Display
- Plug&Play Installation
- No Adjustments Required

Your Corvette is low and not always seen by the driver behind you. This module can give you an extra measure of safety. These devices are full "Plug-N-Play" harnesses that simply plug into your existing center high mount brake light. There are no wires to cut and no adjustments to make. The module automatically pulses your third brake light when you apply the brakes. The light will pulsate on and off for about a second, then stay on steady for as long as you press the brake pedal. The unit is designed to create a gentle fluttering of light, so your car is more noticeable, yet it doesn't aggravate the driver behind you.

1997-04 Back Off™ Third Brake Light Flasher Module

- A "Must Have" Safety Device
- Simple To Install

The module wires into your existing third brake light with two wires in just seconds, then when you apply the brakes it causes your brake light to emit a visual alerting signal of three short light flashes, followed by one long light flash (3.5 seconds).

The signal automatically repeats itself as long as the brakes are applied. The module itself is about the outside dimension of a business card. An optional Back Off™ unit with three-wire hookup is also available which flashes the third brake light when you put your Corvette in reverse to alert drivers behind you. Instructions included.

1997-04 Sequential Turn Signal Kit

- Prewired Harnesses For Easy Installation
- No Cutting Of Factory Wiring

This sequential harness kit will convert the taillights on your 1997-04 Corvette into sequential turn signals. The kit contains two prewired harnesses that simply plug into your existing sockets. Return to stock operation at any time by unplugging the harnesses. It doesn't get any easier than this.

Laser Shield® License Cover

- Diffuses Incoming Laser Beams
- Does Not Obstruct View Of License Numbers

Laser guns emit a laser beam which is bounced off a flat, perpendicular, metallic, reflective surface on your vehicle. This specially designed cover works to absorb and diffuse the incoming laser beam. Significantly shortens the effective distance of laser guns.

Note: Buyer assumes all responsibility for using this product in compliance with local motor vehicle codes.

25-253600

24.99 ea.

The Super Protector® License Plate Cover

- Protects Your Privacy
- Blurs Numbers From Side View And Overhead
- Numbers Visible From Straight On View

How does "The Protector" work? Photo-radar and photo-laser operate at known angles to the direction of traffic flow. Using a passive, state-of-the-art light-bending lens, the camera is unable to see the plate numbers, and identify your vehicle. The license plate is still readable from straight on. Note: Buyer assumes all responsibility for using this product in compliance with local motor vehicle codes.

1997-04 Interior Dye

- **Exact Match In Color**
- **Long Lasting-Out Lasts Paint**
- **12 Oz. Aerosol Spray Or Quart Size**

Formulated and mixed to match our leather or vinyl interiors. This new dye normally requires only one coat if primer P/N 25-168625 or 25-168624 is used first. Made to last and retain color fastness, this dye will make your restoration or just interior upgrade perfect. This spray will cover most jobs unless changing interior colors. Cannot ship by air.

25-168627	12oz. Spray	18.99 ea.
25-245874	Quart	64.99 ea.

Interior Dye Prep and Clear Coats

Formulated to complement the interior dye for a professional and lasting appearance.

Primer

Spray primer on any part that the color is being changed from dark to light.

25-168625	12 Oz. Spray	17.99 ea.
25-168624	Quart	64.99 ea.

Surface Prep

Along with the adhesive promoter, spray prep is specially formulated to give long wear to your newly dyed interior.

25-257051	12 Oz. Spray	20.99 ea.
-----------	--------------	-----------

Adhesive Promoter

Use the promoter after the spray prep. Promoter will create a bonding surface for the primer to adhere.

25-257059	12 Oz. Spray	16.99 ea.
-----------	--------------	-----------

Clear Coat

When high metallic color or just putting dye on hard plastic, use to protect against scratches or rubbing.

25-255883	12 Oz. Spray	17.99 ea.

Coverking CF Grade Neoprene Seat Covers

NEW

25-354071

- **Ultimate Protection Against Dirt, Moisture, Spills And Pets**
- **Made From Genuine CR-Grade Neoprene (Same As High End Wetsuits)**
- **2 Layers (Inner waterproof Neoprene, Outer Water-Resistant Neotex)**
- **CNC Cut, Professionally Assembled & Sewn, Perfect Fit Guaranteed**
- **Soft Cushioned Insulation Comfort**
- **Includes Airbag Cutouts & Map Pockets**
- **Cool In The Summer And Warm In The Winter**
- **Simply Slips Over Existing Seat Fabric**
- **1-Year Limited Manufacturer's Warranty**
- **Made In The USA**

Our CR-Grade Neoprene custom seat covers are made from the same quality material used in high-end wetsuits or divesuits. These covers are extremely water resistant and very durable. Each cover also has a soft and cushioned feel while displaying a sporty design. Coverking Neoprene custom seat covers are the best fitting seat covers you can find in the market. They provide improved durability, seat protection, and increased driving comfort. After installation, long trips will be far more fun because of the extra soft cushioned insulation. Because they are warm in the winter and cold in the summer, they're ideal no matter where you live. They are precision engineered, CNC cut, and professionally sewn for a perfect fit and they include airbag cutouts. Installation is as simple as slipping over your existing seats. You can trust Coverking because they are made in the USA and backed by a solid 1-year manufacturer's warranty. Trust Eckler's Corvette for all your C5 Corvette accessory, restoration, and performance part needs.

True Custom Patterns: All of our covers are digitally scanned using 3D-imaging equipment to produce a true custom fit. We also have the largest collection of patterns for all make and models. Our engineers spend weeks refining and perfecting patterns specifically for your seats. Each custom pattern is tested for precise fit and durability. The design process is a art-form - we have to balance and make sure the covers are easy to install while creating the best possible fit possible. All of our patterns are engineered to meet this goal. **The Coverking Advantage:** Same high quality material all around the seat with no substitution in material. Primary material on all surfaces (competitors have very thin, almost transparent, fabric on sides and back) High quality buckles, zippers, and larger pull-through flaps for easy install, secure fit, and long life. We add extra material fabric underneath tight areas to prevent tearing.

Coverking Seat Covers

NEW

25-353880

- **A Lightweight And Less-Expensive Alternative To Genuine CR Grade Neoprene**
- **Unique Two Tone Carbon Fiber And Black**
- **Design Compliments Your High Tech Vette**
- **Custom Manufactured For Your Corvette Seats, Perfect Fit Guaranteed**
- **Includes Airbag Cutouts & Map Pockets**
- **Cool In The Summer And Warm In The Winter**
- **Simply Slips Over Existing Seat Fabric**
- **1-Year Limited Manufacturer's Warranty**
- **Made In The USA**

The seats in your C5 Corvette are subject to tremendous wear and tear. They are expected to deliver comfort, safety, and durability. Over time, your seats can become dingy, faded, worn, even torn. You can protect them with simple slip over seat covers but some can get pricey. Eckler's Corvette has the ultimate affordable solution: Coverking Neosupreme two tone carbon fiber seat covers. These unique and high tech looking seat covers are an instant conversation piece because of their genuine carbon fiber appearance. Our Neosupreme custom-fit seat covers are designed with the same exact specifications as Coverking Neoprene seat covers. You will get the same sporty look and great cushiony feel with our popular Neosupreme seat cover without the higher price. While not as thick and water resistant as Neoprene, these covers still do the job and are great when you want a sporty look or have an active lifestyle. After installation, long trips will be far more fun because of the extra soft cushioned insulation. Because they are warm in the winter and cold in the summer, they're ideal no matter where you live. They are precision engineered and manufactured for a perfect fit and include airbag cutouts. Installation is as simple as slipping over your existing seats. You can trust Coverking because they are made in the USA and backed by a solid 1-year manufacturer's warranty. Trust Eckler's Corvette for all your C5 1997, 1998, 1999, 2000, 2001, 2002, 2003, and 2004 Corvette accessory, restoration, and performance part needs. **True Custom Patterns:** All of our covers are digitally scanned using 3D-imaging equipment to produce a true custom fit. We also have the largest collection of patterns for all make and models. Our engineers spend weeks refining and perfecting patterns specifically for your seats. Each custom pattern is tested for precise fit and durability. The design process is an art-form - we have to balance and make sure the covers are easy to install while creating the best possible fit possible. All of our patterns are engineered to meet this goal.

The Coverking Advantage: Same high quality material all around the seat with no substitution in material. Primary material on all surfaces (competitors have very thin, almost transparent, fabric on sides and back). High quality buckles, zippers, and larger pull-through flaps for easy install, secure fit, and long life. We add extra material fabric underneath tight areas to prevent tearing.

- **Mounts Easily Over Carpet Riser**

In a Corvette there's seldom as much storage space as you would like, now you can add more easily with this creatively designed Storage Console. Mounting the unit is easy, simply push the supplied push tabs through the carpet and bend them over, then secure the carpet to the floor with the provided self-adhesive pads. It's as easy as that!

1997-04 Footwell Bright LED Kit

- *Light Strip Adds 15 Bright LED Lights To Your Driver & Passenger Footwell,*
- *Plug And Play With No Wire Splicing*
- *Waterproof & Flexible*
- *Choose From 9 Vibrant Colors*
- *Includes Commercially Backed Adhesive*
- *Made In The USA*

Your C5 Corvette utilizes the very latest LED technology...but not everywhere. The factory footwell lighting is not very bright at night...making it difficult to see. Eckler's Corvette bright LED footwell lighting kit will light up the entire footwell area not just a small area like the factory light. This plug and play kit and plugs directly into the factory connector with no tapping into the wiring harness. Each kit includes LED strips with 15 bright LED's per side and are available in 8 vibrant colors. The kit covers drivers and passenger footwell and retains the "theater" effect of the factory interior lights. With all our available colors other C7 Corvette owners will be checking your car out! Installation takes about 30 minutes and stay in place with the included commercial backed adhesive.

25-352595 Available in White, Red, Green, Yellow, Blue, Orange and Amber **49.99 ea.**

25-352579 Available in White, Red, Green, Yellow, Blue, Orange, Purple, Aqua and Amber **59.99 ea.**

NEW

1997-04 Superbright LED Bulb Package

- *Includes Footwell, Map Light, Rear Compartment and License Plate*
- *Made in The USA*
- *Takes Less Energy And Last Much Longer Than Incandescent Bulbs*
- *Available in Amber, Red, White, Green, Yellow, Blue, Orange and Aqua*

Now available are our C6 complete interior led bulb replacement package. Get rid of those dingy factory bulbs and upgrade to these Plug and Play superbright LEDs. Each bulb has 5 superbright 5050 smd chips for a wide pattern of light. The rear compartment/trunk leds have 8 superbright leds. They also run much cooler and require less energy to run. This kit also includes 2 LEDs to replace the factory rear license plate bulbs making it much brighter and whiter!

25-352516 **51.99 ea.**

1997-13 Rear Hatch / Trunk LED Strip Kit, Superbright

- *Each strip has 54 LED's*
- *Mounts with commercial strength adhesive backing*
- *Choose From 9 Vibrant Colors*
- *Made In The USA*

NEW

Corvette rear hatch area or Trunk LED Lighting kit will brighten up your rear compartment or trunk when opened so you can see what you're looking for or just to show off a little. They work with convertible and coupe models. These are designed to wire into the factory trunk/hatch lights so they only come on when the trunk/hatch or interior lights are on.

25-352984 Available in Purple, Aqua, Amber, Orange, Blue, Yellow, Green, Red and White **39.99 ea.**

25-352991 Available in Red, Amber, Orange, Blue, Yellow, Green and White **36.99 ea.**

NEW

1997-04 Window Switch LED Lighting Kit

- *Brighter & More Energy Efficient, Lasts Up To 25 Times Longer Than Factory Bulbs*

- *Available in White, Red, Blue and Green*
- *Made In The USA*

Introducing our answer to those weak yellow looking factory window switch lights. Our new LED product changes your window switches to the color of your choice. Very easy mod to do and only takes about 1/2 hour. Simply twist out the factory light bulbs and twist in our new LED modules. Kit comes complete with LEDs to do drivers and passenger window switches. Colors available are Red, Blue, White, Green.

2.99 ea.

1997-04 Blank Ignition Key

• **Specially Coded, Includes Cover**

Because 1997 and later Corvettes have specially coded ignition keys, it makes good sense to have a couple of spares. To order a key, have your local GM dealer measure the resistance on your key (it will be a 2 thru 15 value code) and add that code to the part number listed below. We'll ship you the correct key which can then be cut by a local locksmith. It's as easy as that.

1997-04 Speed Lingerie 5 In 1 Rear Deck Cover

- Hand Cut & Stitched To Order
- Available In All Factory Colors To Blend Beautifully With The Exterior Or Interior Color
- Mud and Dirt Wipes Away Easily From The Smooth Surface
- Fits Coupes and Convertibles. Trunk Curtain For Convertible Only

This rear deck 5 In 1 cover will work for any situation. You can use it for your rear deck to protect the top deck from scratches, nicks, wscrapes and many more. Also can use it as a trunk mat to place dirty shoes, golf bags, etc. Mud and dirt easily wipes away. Another use is as a door and fender cover, protect your door from anyone nicking your door in the parking lot. Also if you need to your oil, throw the cover over your fender to protect it from scratches. One last use is as a trunk curtain for convertibles only, to separate the trunk area and convertible top. See EcklersCorvette.com for more photos.

1997-04 Heavy Duty Tie Rod Ends

- **A Must For Performance Handling**
- **Reduces Torque Steering**
- **Reduces Hub Bearing Wear**

25-128875

These heavy-duty rods are head and shoulders better than the stock rods for several reasons: (a) they withstand heat better (b) they have a much better side load capacity (c) they give longer threaded shafts to accommodate cars that are lowered.

1997-04 Touring Sport Suspension Kit

- **Delivers Z06 Like Performance**
- **Easy Bolt-On Installation**

Give your C5, 2001, Z06 like performance with the installation of only three perfectly designed parts, install a set of Bilstein digressively valved high-pressure gas shocks to give you a more responsive ride. Combine this with a higher spring rate front spring, cradle it in urethane spring mounts and you've got instantly upgraded handling without any harshness in day-to-day street driving. Non-Z51 cars will see a dramatic difference in handling while Z51 equipped models will definitely find an improvement.

1997-04 Street Version Coilover Shock Kits

- **Replaces Original Spring And Shocks**
- **Reduces Unsprung Weight For Faster Reaction To Changing Pavement**
- **Quick And Easy Ride Height Adjustments**
- **Kit Includes Two Shocks, Srpings And Hardware • 18 Valve Settings**

The key difference in these QA1 coilover models is the range of adjustability. The Single units have 18 various valve setting controlling rebound and compression simultaneously. They made this valving option change to provide more definitive valving control settings that can be felt as well as graphed on a shock dyno. The all new QA1 coil-over system allows the enthusiast to remove the old transverse spring and utilize true four corner "tuning" at each wheel through the use of the coil-overs. In general, we believe the 450 lb. spring rate is a great street set-up.

1997-13 HQ Shock System

Shocks are the BRAINS of your suspension! Nothing influences how your car rides and handles more than shock absorbers. If you could pick only one thing to change on your car to get the most overall improvement... upgrade the brains of your suspension? the shocks! It took Ridetech 16 years to find shock technology

that they felt was worthy of their customers. After engaging the expertise of FOX Racing Shocks, they felt they were able to bring the already crowded shock market a product that was both unique and improved.

1997-04 Heavy Duty Adjustable Sway Bar End Links

- Adjustable For Exact Sway Bar Fit
- Heavy Duty Design For Extreme Strength

High performance driving demands high performance parts. Sway bar end links are no exception. Eckler's Corvette Performance Parts now offers an adjustable heim joint sway bar end link for a perfect fit to the lower control arm regardless of the ride height settings. Included in this kit are aircraft quality heim joints, spacers and hardware for an exact link alignment of the bar to the lower control arms.

1997-04 Hi-Performance Sway Bar End Links

- *GM's Answer To Improve Weak End Links*
- *Cast Aluminum Link*
- *Replaces Plastic Link On 1997-03's*

In 2004 GM improved the stock front and rear sway bar end links by changing to cast aluminum instead of plastic. This change greatly reduces the possibility of heavy side loads pulling the studs out of the links. Use these links front and rear for upgrades on 1997-03's and as replacements for 2004 C5's.

1997-04 Eibach Anti-Roll Kit

- *Reduces Body Roll Includes Front and Rear Sway Bars*
- *Bushings and Hardware included*

This Eibach anti-roll kit allows critical fine-tuning of your car's handling characteristics. Manufactured from cold-formed, high-strength aircraft-grade steel and finished with a long-lasting red powder coat finish, this kit reduces body roll through increased design stiffness over stock Sway Bars for increased handling and cornering grip in any performance-driving situation. Kit comes complete with greased urethane bushings for improved responsiveness and all mounting hardware and instructions for easy installation.

1997-04 6-Speed Transmission Cooler Kit

- *Reduces Transmission Oil Temperature Up To 50 Degrees*
- *Improves Transmission Durability Fits C5 Or Z06*
- *Designed For T1 Racing By GM Racing*

Track-Time driving will increase your 6-speed transmission oil temperatures beyond the oil's designed capability to properly lubricate. This kit will reduce oil temperatures as much as 50 degrees which improves the transmission durability. It's designed for the serious track-time driver as well as any road racing C5. The kit includes all of the necessary components, but requires some fabrication for the cooler brackets and their location.

1997-04 Jacking Lift Pads

- *A "Must" For Every C5 Owner*
- *Prevents Broken Body Panels*

Before lifting your C5 at home or at a shop, jacking lift pads should be used to prevent costly body panel damage. The pads are made of heavy-duty plastic which snap into position and can be left in the mounts permanently. Four required to lift all four wheels off the ground. Tip: carry these pads everywhere you travel just in case you need to have your Corvette lifted. Pads are black in color.

Corvette Black Book

Engineers and designers left nothing untouched in the 2015 Corvette, the first model of the icon's seventh generation. The new Corvette Black Book presents 2015 data in the clear, concise, accurate and easy-to-read style that has made it the best-selling Corvette title ever. The book also wraps up seventh-generation 2014 coverage with production quantity stats for models, colors and options. The 2014 was both the first of the seventh-generation. The Corvette Black Book summarizes the data for your enjoyment and planning. With 160 pages, softbound, 4.375" x 10" vertical, 67 b/w photos, uncountable facts.

GM Gen III LS-Series Book

- Soft Cover, 144 Pages With Over 325 Color Photos & Charts

To get the maximum performance and efficiency out of any modern engine, you have to have a solid understanding of the technology involved and how to make the most of it. In How to Use and Upgrade to GM Gen III LS-Series Powertrain Control Systems, the benefits, advantages and nuances of this robust and efficient control system are thoroughly examined. Do you have a vehicle already equipped with an LS Series engine but want to do a transmission swap? Do you want to convert from a cable throttle to an electronic throttle, and make systems like cruise control integrate? Perhaps convert your Gen I small-block to distributor-less ignition? Or convert to universal OBD-II diagnostics? Do you want an affordable control system to run fuel injection, ignition timing, cooling fans, air conditioning, and electronic overdrive transmissions while swapping all if this into your classic muscle car? How to Use and Upgrade to GM Gen III LS-Series Powertrain Control Systems will cover all of these applications and more. Not only are the performance and flexibility aspects covered in great detail, but there are significant cost benefits as well.

Corvette Sixty Years Book

- 10" x 12.5" Hardcover With Jacket
- 256 Pages, 250 Color and 150 Black/White Photos

Through hundreds of rare and unpublished photos from GM's media and design archives and in-depth text by renowned Corvette historian Randy Leffingwell, Corvette Sixty Years celebrates the first six decades of America's sports car, covering the revolution and evolution of America's longest continuously produced sports car, from Harley Earl's initial concept to the latest 60th anniversary edition built to celebrate the Vette's 60th year. Created in cooperation with General Motors, the book focuses as much on the Corvette's place in popular motoring culture as it does on the engineering and design history.

1997-04 WeatherShield® Car Cover

- **"The" Ultimate Car Cover Fabric**
- **Repels Water Better, Keeps Car Dryer, Packs Small And Light, Dries In A Flash**

The WeatherShield® Car Cover manufactured by Covercraft is the standard in top of the line car covers. It keeps your Corvette dryer, is softer against your paint's fine finish, dries faster and breathes better than anything on the market today. Combine that with the fact that it has special UV inhibitors and you've got an unbeatable combination. Technically speaking the fabric is different because the one-layer fabric goes thru the Nextec® encapsulation process which non-technically speaking is

4 Year
Limited
Warranty

the very best way to make an extraordinary fabric. In fact this process also gives this fabric a 9 out of 10 rating for simple dust protection too! The WeatherShield® cover has these quality features; double stitched seams, neoprene elastic front and rear for a snug fit and reinforced, non-scratch grommets for optional lock.

1997-04 Covercraft Form-Fit Indoor Car Covers

- **Ideal Indoor Cover**
- **Excellent Dust Protection And Breathability**
- **Exclusive Body-Hugging Fit**

Covercraft's Form-Fit™ covers are ideal for protecting beautiful paint finishes. The inside fibers are 100% cotton terry loop, which are sheared to a fleece-like finish to provide a super soft feel. The outer shell of woven polyester has Lycra/Spandex® added to the yarn to give the cover an exclusive, body hugging fit unlike any other cover produced. And unlike other fabrics, Covercraft's material retains its shape over an extended period of time while the 7.4oz material helps provide cushioning against accidental dings. The Form-Fit™ cover is machine washable and carries a manufacturers limited warranty of 4 years. Storage bag included.

1997-04 Covercraft Carband

- Offers 360° Protection From Nicks, Dings, And Scratches Easy To Use
- Tight-Fitting And Self-Securing

We've all been there: You've parked your car in a parking lot only to discover a small dent or scratch left by an adjacent car door. Or you think you've parked your car safely in your own garage only to find dings from a fallen shovel or scratches from the kid's bike handles. Protect your investment with the Carband Plus. The Carband surrounds your vehicle in 360° protection from dents, nicks, dings, and scratches. Made from impact-absorbing spacer mesh material, it conforms to the shape of your vehicle for a perfectly snug fit. Applying the Carband Plus is fast and easy, just place one end over the front or rear bumper then stretch the band over the opposite bumper area. The Carband is breathable to promote air circulation and minimize moisture build up and is thick without being bulky for easy storage. Perfect for use in private and public garages, parking lots, and street parking.

1997-13 Cool Cap™ Cockpit Reflector Cover

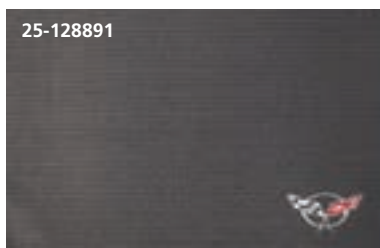

- Reduces Heat Of Interior Compartment
- Easy To Install
- Light Weight & Easy To Store Inside

SPECIAL NOTE: For a limited time only Eckler's is offering you the Cockpit Reflector Cover "Cool Cap" for only \$89.99. In addition to this special price offering, you will receive a "Cool Cap" storage bag (A \$14.95 Value Free). Now you can store the "Cool Cap" inside without taking up all your interior storage area. Get One Today!

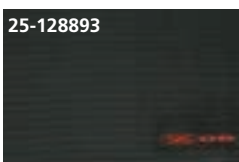

The Cool Cap™ works by covering the roof and windows of a vehicle – stopping the heat from getting into the car's interior. In their testing, they have recorded temperatures as high as 210°F on the dashboards of vehicles on 90°F and hotter days. In the same conditions, cars covered with the Cool Cap™ remain over 90°F cooler. Made from Reflectionite fabric.

Race Ramps

- Accommodates Low Front Ends
- Holds 1500 Lbs. Each
- Lightweight Polystyrene 1-Piece and 2-Piece Construction
- 2-Piece Design Allow Easier Side Access Under Car

Race Ramps allow you to get under your car quickly, safely and without any frustrating hassles. Race Ramps will not slide across your garage floor, dig into your asphalt driveway or scratch your painted floors. They will raise your car 8" and you never have to worry about rust. Also Race Ramps accommodates tires up to 10" in width. Race Ramps are lightweight, easy to transport and they are supplied with straps for easy carrying and you can use the straps to hang them on the wall when you're done.

Battery Tender

- *Safe, Reliable, Trouble Free Battery Care*
- *Developed To Maintain Batteries Not In Constant Use Or Storage*

Automatically switches off after fully charging to storage charge constantly monitors the battery without the damaging effects of trickle charging. The initial charge cycle of the Battery Tender brings a battery to a full charge at approximately 14.4 volts about 1.25 amps. After a full charge is reached, the Battery Tender automatically converts to a float charger and monitors the battery at 13.6 volts. Although there is a constant voltage of 13.6 volts being applied to the battery, it is doing so at very little or no current. What this means to the user is safe, reliable, trouble free battery care. Equipped with 6' power cord, and 6' output cord with clamps, 5 year warranty.

25-253877

63.99 ea.

Battery Tender Waterproof 800 Charger

- *Charges Battery And Maintains Proper Storage Voltage Without Damaging Effects Caused By Trickle Chargers*

The Battery Tender Waterproof 800 is perfect for outdoor use. Its circuitry is epoxy encapsulated so it will perform even while submersed under water. The unit packs 800 milliamps of pure charging power yet it is no larger than the size of a standard computer mouse. You can use Battery Tender anywhere in the world (100-240VAC 50/60 Hz) and the unit is reverse polarity protected, spark proof and it complies to international safety standards (UL/CSA/CE). Like all Battery Tenders, it has a microprocessor (brain) that controls the charging of each battery so that your battery doesn't get "cooked" the way conventional chargers can do. This lightweight unit weighs only 1 lb. and carries a manufacturers' 2 year warranty.

25-253879

49.99 ea.

Battery Mat

Mats absorb battery acid to protect the battery, holder and surroundings from corrosion. Mats are 8" x 12", trim to fit.

Battery Tender 2 Bank Charger 12 Volt

- *2 Independent Charging Stations*
- *Developed To Maintain Batteries Not In Constant Use Or In Storage*
- *Fully Automatic Charger*
- *12 Volts @ 1.25 Amps Per Station*
- *Operates anywhere In The World!*
- *100-240 VAC 50/60 Hz.*
- *Reverse Polarity Protection To Ensure User Safety*
- *Microprocessor Controlled Constant Current Charging*
- *2 Year Warranty*

The 2 Bank Battery Tender® Charging Station is two encased 1.25 amp battery chargers designed to fully charge a battery and maintain it at proper storage voltage without the damaging effects caused by trickle chargers.

25-313686

129.99 ea.

Battery Quick Disconnect Switches

- *Avoid Short Circuits And Battery Drain*

Just twist the handy knob and cut off current at the battery. Simple switch installs in minutes and easily removes to return to original condition. Purchase bypass wire to eliminate hassle of resetting stereo and other ECM functions.

Dual Master Cylinder Brake Pressure Bleeder

- **Bleeds Brakes Like The Professionals**
- **Pressurized Brake Fluid Forces Trapped Air From The Brake System**
- **Fits Master Cylinder Openings Up To 4"x6.5"**

Finally an affordable and easy-to-use brake pressure bleeder for the do-it-yourself mechanic is now available. This tool uses air pressure to force brake fluid through the system during the brake bleeding process. Pressurized fluid forces all the trapped air in the hydraulic system out, providing the most efficient way to have a firm brake pedal. This kit will work on any dual master cylinder and eliminates the need for a second person during the bleeding process.

- Great For "Road Rash" Touch-ups
- Repairs Up To 2 Dozen Chips
- Exact Match OEM Paint Included In Every Kit
- Simple, Fast, Permanent Chip Repair
- This Item Can Not Be Shipped By Air

Dr. ColorChip's proprietary, three-step paint chip repair process is the easiest and most effective way to touch-up minor automotive paint chips and road rash. Effective paint chip repair keeps your car looking like new and protects it from rust and other long-term damage. Easier to use than traditional touch-up paint or paint pens, you'll get professional results and a guaranteed exact OEM match to your car's finish!

Kit Includes:

- 1/2 oz custom OEM matched paint
- 2 oz SealAct® blending solution
- 1 microfiber towel
- 1 Dr. ColorChip Tandem paint brush
- 2 Micro brushes
- 1 Chemical-resistant glove
- Complete instructions

Brake Caliper Paint System

- **Produces High Gloss Finish**
- **High Heat Resistance**
- **Easy Brush-On Application**

The G2 BRAKE Caliper Paint System set includes a high-performance brake caliper spray cleaner, a two-part high gloss paint that withstands up to 980°F, a mixing stick and an application brush. Unlike spray can products, this G2 brake caliper brush-on paint is neater to apply, will not flake off and dries much harder. Your brake calipers will look fantastic and they'll be protected against rust and corrosion.

Corvette Logo Stadium Knit Blankets

- Measures 63" x 53"
- Special Acrylic Yard
- Highly Resistant To Fade, Abrasion And Pilling
- Machine Washable
- Made In USA

Enjoy the warm comfort of this Corvette C1 logo blanket. Take it to car shows, ball games or just sitting around watching TV. This custom knit stadium blanket has a special grade acrylic yarn for a soft lush feel that is also highly resistant to fade, abrasion and pilling. The logo is knit into the blanket for superior wear unlike those that are silk screened. It is machine washable and measures 63" x 53".

Eckler's Family of Automotive
Parts Companies also includes
MAC's Auto Parts, Automation, and
Rick's Camaro.

Ordering is Easy!

We accept credit and debit cards, checks, and money orders, as well as first party, preprinted checks from U.S. banks with your order.

There will be a \$25.00 charge for all checks returned for insufficient funds.

Returns

We understand that from time to time, parts might not meet your expectations. You may return most parts for a full refund. Product must be received within 30 days of the date of the invoice to be eligible for a full refund. Items received from 31-60 days after invoice are subject to a 25% restocking fee. When returning an item, please enclose a copy of the original sales invoice and package the item in its original packaging. All returns must be unused, in original packaging, and prepaid. Allow up to 3 weeks from the date of shipment for processing, refunds, credits, and exchanges. Unfortunately, not all items are eligible for return. Date-coded (stamped) items, personalized items, custom carpet and floor mats, and custom clothing are some of the items that cannot be returned.

Shipping and Handling Rates

Once we package your order, we choose the fastest, most economical way to ship the packages from our facility to you. Depending on the weight and size of the package(s) in your order, we utilize services that offer package tracking. Items that are oversized (denoted by ) or exceed shipping limits, are sent to you via truck.

Rates apply to ground service shipping within the 48 contiguous states. Truck-shipped parts and rates for Alaska, Hawaii and Puerto Rico might vary.

 denotes items that ship via truck.

 denotes oversized dimensions or weight. An additional \$9.99 is added to the shipping and handling charges for each symbol shown.

Shipping Table

These costs include Eckler's exclusive Package Protection Plan.

Orders up to \$50.00	add \$9.99
\$50.01 to \$100.00	add \$16.99
\$100.01 to \$200.00	add \$22.99
\$200.01 to \$400.00	add \$30.99
\$400.01 to \$600.00	add \$38.99
\$600.01 to \$800.00	add \$44.99
\$800.01 to \$1,000.00	add \$50.99
Over \$1,000.00	add \$55.99

We Will Be Closed On These Days:

Memorial Day	Monday, May 25, 2015
Independence Day	Friday, July 3, 2015
Labor Day	Monday, September 7, 2015
Thanksgiving	Thursday, November 26, 2015 Friday November 27, 2015
Christmas	Thursday, December 24 Friday, December 25, 2015
New Year's Day	Friday, January 1, 2016

International Orders

We are International shipping experts. Many of our customers live internationally. With very few exceptions, all items are available to purchase either on the web or via phone or fax. Need an interpreter to place your order? Simply ask your sales agent and we'll assist you. We select the best carrier to ship parts to you most efficiently. Canadian and International shipping will be determined by your country, product dimensions, and product weight. We would be happy to give you an estimate over the phone or via email.

Need it Fast?

Have your order delivered within 1 or 2 business days by using Express Shipping! Express shipping is limited to in-stock, non-oversized items weighing less than 20 pounds. Orders must be placed Monday–Friday before 1:00 p.m. EST.

- Add \$19.99 to your shipping and handling rates for two-day delivery.
- Add \$29.99 to your shipping and handling rates for one-day delivery.
- For next day delivery of oversized or heavier items, please call our sales team for rates.

Same-Day Processing

Our standard U.S. order processing time for in-stock items is 24 hours. If you need your order processed the same day, simply call us M-F before 1:00 pm EST and request same day-processing. For \$3.95, we'll provide special processing of all in-stock parts through the warehouse the same day.

Prices in this Catalog

Eckler's is not responsible for pricing changes, errors, or omissions in this catalog or online.

Limited Warranty

Eckler's will not be responsible for any damage or loss caused by delays, failures, or other consequential damage, nor for labor, transportation, or any other charges incurred in the replacement or repair of a defective item. Eckler's is not responsible of any consequences resulting from the installation of any parts.

Gift Certificates

Gift certificates are available in any denomination and are redeemable for any items we sell.

1997-04 Sway Bar End Link

- Replacement Bar

Replace your plastic sway bar end links with this performance end link from Ecklers. GM replaced the plastic links on the Z06 but priced high. Here is a great alternative if all you need is strength.
